## ENTHUSIASTIC MEETING HELD G.W.V.A. ROOMS

One of Most Representative  
Meetings Ever Held Here—  
All Present Get Behind G. W. V. A. in Endeavor to Assist  
Returning Soldiers.

With the view of coming to a better understanding and making plans for assisting returning soldiers to find congenial employment and getting back into civilian life again, the officers and members of the local G. W. V. A. called a meeting of officers, superintendents, union officers, and other citizens in their club rooms last Monday evening.

The gathering was one of the most representative ever held in town and as several members of importance were brought up and have responded to the meeting with interest, there is no doubt that its outcome will be of lasting good to the town.

R. S. Hodge, president of the local G. W. V. A. presided. In this opening remarks he outlined the objects of the meeting, and so thoroughly did he convince the audience that they were in the right in this.

President's Address:

No officer in the minds of most of you there is some question of why you have been asked to meet the Returned Veterans here this evening. The matter in which you have responded to the meeting, and that you are ready and willing to at least consider such propositions as from time to time may be placed before you by this body. It is hardly necessary for me to remind you that from this town of Redcliff over 200 men responded to the call of civilization to go forth to the battles of Democracy, and well they performed their task. Having finished their task over there, they are again returning to us. Already over forty are back amongst us and are gradually taking their place once again in civil life and the others are going to return to us. "To what will they return?" is one of the questions we, the representatives of the Returned Soldier, wish to discuss with you gentlemen here to-night. To-night you have been invited here to help in constructing a policy whereby we can take care of the returning soldier in the manner which we consider he is entitled to. We have against the employers of labor in this town regarding the manner in which would like to present the returned soldier has been found employment, but you would like you gentlemen, to ask yourselves the question and answer it truly and answer it fairly, have you given to the returning soldier the very best of the way of a job that it is possible for you to give him? Have you to-day in your factory a position being held by an enemy alien which could be so satisfactorily filled by the returned man doing laboring work around the yard or factory? If such a position is to be the case, gentlemen, you are not playing fairly, squarely to the man who by his sacrifice made it possible for you to run your business to-day, secondly you are not acting squarely or honorably to the stockholders of the Company you represent, and to my mind one of the most important duties of a manager is to try to find him just as large a task to pay and have a satisfied bunch of employees and I feel confident that he will not do that; and it is impossible to have harmony if in your employ you have an enemy alien working, but who is not being filled by a returned soldier or some other white man, and I sincerely hope that before this meeting closes some plan will be formulated whereby a more united effort will be put forward in co-operation with the G. W. V. A. so that the returning soldier will not be left in the lurch, and gentlemen, he is entitled to the best you have to offer provided he is capable to fill such a position.

There is no bill governed factory, superintendent and foreman in whom the manager has no say, but their respect; it is to those men that the manager looks for results. They are it was, the field officers executing the plans laid down by the high

command and it is to these gentlemen more so than to the different managers that the returned man will come in contact with. To you gentlemen, I am sure, the sentiment is for, on behalf of the returned man I would ask you to be considerate of the boy who is trying his best to once again take this place in civil life. Don't forget he has been through a real hell, his nerves are shattered, he matters what he says to the contrary. No man can go through what he has gone through and come back the same man and perhaps at times he will not come up to your standard of a workman. I ask you to be considerate, to consider carefully before you complain or criticize him. For the moment he may not be here at all, his mind may not be on his work as you think it ought to be. You are possibly right; he might just at that time be sitting on a little wooden cross in France with the name of his pal on a little tin plate. He remembers the circumstances of his capture, he is suffering on another wounded comrade; they might have been together on a working party and some misperpetrated him and he is left alone. Remember the child of a friend during the last four years his mind wanders to the enemy alien who is holding down his job and he is not able to do it himself. "Hei! what the use." On you Superintendent and foreman, I ask a great respect to whether that man makes good or not, therefore I ask of you to be sympathetic and make sure that the man is not what you want him to be, but that he is more obedient and give him of once again filling his place in civil life. I would ask you to keep in mind that during the last four years the soldier has been following a life exactly the opposite of the life he led previous to enlistment and it is going to take some time for him to get back his proper place, but this phase of the subject will be more fully dealt with by other speakers.

Representatives of Labor here this evening I want to give this assurance, that we as an Association stand right behind the cause of organized labor, but we do not intend to tolerate, let alone support, a "Red element" who are using labor as a means to an end, such as we find in Russia to-day. When we find constituted authority endangered it behooves us as citizens who follow a following a life and a half have fought for all we hold dear, to take a stand not against labor but on the side of what we believe right. Beholden as we understand it, cannot and must not be allowed to get a grip on the national life of this country and those who preach his doctrine have no place in the councils of our land and if they are alien who have come here to escape the tyranny of their own land and yet are not willing to become law abiding Canadian Citizens, they must be deported to the place from whence they came. The managers of this business subject the law dealing with their case must be enforced to the fullest or else the fruits of victory for which we have fought and struggled during the last four and a half years will have been fought in vain.

And now I come to that part which concerns our town council and every citizen as a whole. From time to time we hear charges and complaints against our town council. I am sure that the council is not doing as well as it might, but I am going to make the following statement after due consideration. The council of our town to-day from a financial point of view is due first to over enthusiasm in the days prior to the war, secondly to the employment of enemy labor in our factories. There is hardly room for argument in these statements. We have employed in the different industries men of foreign origin such as Austrians, Russians and Chinese as far as I can find out there are few Germans in our midst. Therefore this bill has not been the standard of Western civilization, these men are allowed to live here under

## U.F.A. AND OF DISTRICT HOLD SERVICE

Recent Improvements Made in  
Plant Aid to Efficiency—  
Now Doing Work and Giving  
Satisfaction.

If the great success of the theatre service held in the Amuse-U theatre last Sunday afternoon under the auspices of the different branches or organization of this district, is any criterion, we feel safe in predicting that there will be an annual event for many years to come. There was a good representation from all the U. F. A. branches of the district and the congregation was unusually good.

Great interest and enthusiasm was shown by those who had the arrangements in hand and as a result nothing was overlooked. Younger people of the order of service were distributed and as these contained the most interesting and most valuable into this part of the service. During the service the choir rendered appropriate music which greatly added to the success of the occasion.

Rev. Dr. Shearer conducted the service and delivered an appropriate and interesting address. At the request of the U. F. A. officials we gave an address of the order of service.

Taking for his text Eccl. v-9: "The profit of the earth is little." "The profit of the earth is little," the speaker said. I esteem it a great privilege and a high honor to be invited to preach a sermon to farmers. I was born and brought up in the city. I never worked on a farm. I know nothing about farming except what I have learned from living among farmers, and reading books, magazines and papers devoted to the interests of farming.

On the prairie, and down east also, farming is a very different proposition to-day from what it was 50 years ago. In those days almost everything the farmer grew and ate was grown and manufactured on his own farm. The farmer was not a disorganizer, a man or woman, girl or boy, to be clad in foreign material which was spun and woven out of wool taken from the backs of sheep raised on their own farms. In many instances the clothes they wore were made by the village shoemaker, if not by themselves, out of leather made from the hides of their own cattle. The bread they ate was made out of their own wheat. The meat used in flour and shorts at a new mill, usually run by water power. The most was either their own raising and curing or sugar by trading with neighbors. In places where the maple tree grew it was used for maple syrup and sugar that ever appeared on the table or was used in cooking. When night came on and artificial light was needed the kerosene lamp or candle served the purpose. A cheap, perfect, flickering candle, was carried by the farmer in his pocket.

Dark. All this is now changed. The farmer has become a wage and consumer of other men's products. He buys almost everything he eats and wears. One result of this is that the farm has become deserted by the men who are actually needed to till the soil and gather the harvest. Most of these have left the farm to work in the factories. The farmers are taking their place and towns, and all this multitude is absolutely dependent on the farmer. "The king himself is served by the farmer."

One would naturally suppose that this being the case, farming would be one of the most profitable occupations in which a man could be engaged. The farmer is one of the happiest and most contented of human beings, but still recently this has not been the case. There has been widespread discontent. Farmers as a class have not prospered. Before the war only

Continued on Page 3

## U.F.A. And U.F.W.A. News

The Maple Leaf hotel held its monthly meeting on Wednesday, June 12th. There was a splendid attendance to be held on July 1st. The various arrangements made to make this the most successful picnic yet held. The members voluntarily collected themselves to help show the unanimity of the district. At the close of the meeting the ladies took possession of the hall with the object of forming a branch of the U. F. W. A. and eight members enrolled. The following officers were elected:

President, Mrs. N. C. Larson, Vice-Pres., Mrs. H. Baker, Sec.-Treas., Mrs. E. Huxley. It is expected that this branch will have a membership of twenty or over in the very near future.

At the district meeting, Mr. P. H. Wedderburn was present and assisted the ladies in the organization. With Harvest Vale, Howell, Breckenridge, and the district, June 12th, and there was a record attendance. The business was taken up and done with, and the presidents of the U. F. W. A. and the U. F. A. were elected.

On Saturday evening, the 14th, the local meeting of the U. F. W. A. and the U. F. A. had their bi-monthly meeting and there was a good attendance. To show their appreciation of the splendid assistance rendered by the ladies during the visit of the R. E. D. W. A. to Howell the men took up a collection and raised \$24.95 for the R. E. D. W. A. fund.

In order to be more efficient for every organization a personal canvass of every man and woman is to be made in the district. This local meets again on June 15th. The Breckenridge local meets on July 1st when it is hoped there will be a record attendance. The branch is going strong and it is the intention of other branches to visit them at their next meeting.

Wednesday, the District Director, expects to start shortly on a ten day's organization trip to the out-lying districts. P. H. is greatly interested in this movement and there is no doubt that his enthusiasm will show good results.

## Piano Recital Was Great Success

The piano recital given by the pupils of Mrs. Ruggles and Mrs. Dobbin in the Amuse-U theatre here last Thursday evening was a great success for every standpoint. As these ladies have classes in both Medicine Hat and Redcliff, pupils from both places took part in the program. As a result there were an unusually large number of items on the program, but notwithstanding this there was no monotony. The program lasted about thirty minutes throughout the whole performance. Girls and boys of all ages took part and the manner in which they acquitted themselves reflected great credit on the ability of their teachers.

During the evening variety was given to the program by the instrumental solos of Miss Olga, Miss Violet Gibson and Miss Ora Long, and violin selections by Bert White and Arthur Brown.

Redcliff is extremely fortunate in having two such capable music teachers as Mrs. Ruggles and Mrs. Dobbin. The interest they are taking in their pupils augurs brightly for their future success. It is to be hoped we will have many more such interesting evenings in Redcliff.

## A.J. Learmonth Elected Councilor

Nominations for candidates to fill the vacancy in the town council caused by the retirement of G. Lyall, took place in Crow's hall last Monday. As A. J. Learmonth was the only candidate nominated, he was elected without a contest by acclamation.

## LOCAL BRANCH G. W. V. A. NOTES

A special meeting of all returned soldiers will be held in the club rooms on Sunday, June 22nd, at 3 p. m.

The Association decided to thank the Ladies' Aid to the Presbyterian church for the very splendid donation of \$25 which the secretary received this week. This money will be used to pay for our plans.

This branch of the G. W. V. A. is entirely in sympathy with legitimate labor unionism but antagonistic to Bolshevism and "Red" agitation.

One of the aims and objects of the local branch of the G. W. V. A. is to work for the betterment of the community we live in. We want to make Redcliff the centre of attraction for those who live in it, so we want to be able to go outside points for anything. You can help us to do this by giving us your support in all our undertakings that we may, from time to time, attempt. We are going to have Redcliff, are you?

The meeting held last Monday in the club rooms was a success. We thank the ladies for the very splendid donation of \$25 which the secretary received this week. This money will be used to pay for our plans.

## Redcliff Loses out In Football Game

Last Tuesday was evidently the Redcliff football team's day off as they did not show up in their usual form at the league game here with the Vets of Medicine Hat. As a result they were unable to locate the nets while their opponents scored three goals.

One of the biggest records of the season witnessed the game but their opponents scored three goals. It appeared to be simply a case of our night off, with no chance of getting on at any stage of the game. Although the weather was ideal for first-class ball the game throughout was slow and the unusually large number of throw-ins made the more uninteresting. For the first twenty minutes the play was very even and it looked as though the first summing up would be a draw. Towards the close of the first half the visitors made several unsuccessful runs and within a few minutes a 5 time they scored on a corner kick.

The second half opened with more promising prospects for the home team. They started with a rush and had three shots on goal in as many minutes. Each, however, was well blocked and after six minutes the visitors again scored off a penalty kick. With two goals to the credit of the visitors lost no opportunity to kick the ball out of bounds. This had a tendency to change the game and the home team made no attempt at good playing impasse. Shortly before time was called the visitors scored again on a kick in the corner, leaving the score at the finish 3 to 0 in the Vets' favor.

According to the play it was a case of the best team but with the home team in their usual form result would have been much more even. The teams lined up as follows: Vets—McKay, Huxley, McGraw, McKay, Jamieson, Hitchcock, McGraw, Collins, Appleton, Stuart, and Reed. Redcliff—Gibbons, Learmonth, Stevens, Labey, Stinson, Gossard, Watson, Mallen, Mackell and Holde. Referee—E. H. Whiteside.

## Scout Meeting Here Monday June 23rd

There will be a meeting held in Redcliff hall on Monday evening next at 8 o'clock for the purpose of the election of Scouts who will assemble here on July 1st from all parts of the district. All citizens interested in the Boy Scouts are requested to attend. Rev. Richards and District Scout Master A. C. Wade, of Medicine Hat, and resident ministers will be present and address the meeting.

## OPEN HEARTH FURNACE HERE BEST IN CANADA

**GET BEHIND THEM.**

That the local branch of the Great War Veterans' Association is destined to play an important part in the affairs of Redcliff in the future was very clearly demonstrated at the meeting held in the G. W. V. A. rooms last Monday evening.

In the past in this town there have been many suggestions from different sources, which, if acted upon, would have resulted in the betterment of local conditions, socially, morally and every other way. But the great trouble has been an utter lack of leadership to start the ball rolling, but the suggestions into operation and carry them through to a successful finish. There were reasons for this. One was that people were slow to start movements, no matter how worthy, for fear that, in the carrying out of them, some might get offended because their toes were being trodden on. The wet blanket artist, those who always say "It can't be done" and those who "never have time" and other reasons why good suggestions were allowed to die and be forgotten.

With the leadership, however, of men, who for four and a half years did their duty because it was their duty, and regardless of consequences, and with the very evident interest these men are taking in all matters pertaining to the betterment of conditions, we have reason to feel that we are on the eve of a vast improvement of conditions in Redcliff.

Those of us, however, who are not eligible to join the G.W.V.A. must not think that this organization relieves us of our responsibility. The leaders cannot do it all. Ten thousand leaders like Foch could not have defeated the Hun alone. It was only because of the singleness of purpose and the concerted action of all under him that Foch is today overseeing the carrying out of the peace terms, instead of von Hindenburg or von something else.

Let us all then from the heavy artillery to the smallest get behind the leadership of the G. W. V. A. and encourage and support them in all their undertakings for the betterment of conditions socially, morally and intellectually.

**PROCRASTINATION.**

The arrest of a number of the ringleaders of the Winnipeg strike the other day looks like another proof that "procrastination is the thief of time." The delay has not only been the thief of time but it has also robbed the public of considerable business and no small amount of peace and prosperity. If charges of sufficient magnitude to warrant the placing of these men under arrest existed two or three days ago they certainly existed a month ago, and if they existed a month ago that was the time to have placed them under arrest and to have nipped in the bud all this trouble and turmoil.

Procrastination has been one of the very noticeable faults with the present government in all labor troubles and in all measures ever since they appeared to the country. Past troubles have proved this and the Winnipeg

pay incident is no exception.

Not one labor question the only one in which the government has shown the spirit of procrastination. The present investigation being held by the High Cost of Living Commission stands out as another example. For almost five years was procrastination being bleed the public white, and according to evidence taken before this commission only the other day, those profiteers are still in our midst "growing like a cedar in Lebanon."

They are not only in our midst, but after it had been proven that such manufacturers had been making as high as three hundred per cent profit, representatives of this line of business on their way to a court of the land had the nerve to attempt to tell the people of Canada that they were not running their business for the glory of God but for the benefit of their shareholders. Surely in a Christian country like this where we are taught from the cradle to the grave that we should be in to glorify God and to enjoy Him forever, there is nothing that could incite the public to wrath, indignation and ever revolution, more quickly than such glib, arrogant references to "The Giver of every good and perfect gift."

And we have no criticism to offer for the arrest of the soviet agitators in Winnipeg, except that it was too long delayed, yet if they were arrested for inciting the public to mob rule and revolution, sure, surely, the time should be lost in bringing to justice such men as above referred to.

A noted Englishman passing through Canada recently said: "Here in Canada you have your champion in the very year you breathe." This man may have thought he was complimenting us on our pure, healthy, exhilarating air but it's an even bet that he was just paying the way for more trouble for us. We may now expect some enterprising individuals to go into the condensed air industry, and later on our governments will be passing legislation making it necessary to have the air filtered and requiring each individual to get a doctor's prescription in order to draw more than a certain number of breaths each day. Some body is always taking the joy out of life.

The bet is dollars to doughnuts that there were very few Redcliff people out of town last Tuesday evening. They were all at the football game. This only goes to prove we were not very far wrong when a few weeks ago we advocated more sports and entertainments as a means of keeping our people and their money at home. Our football club is filling a big gap but there should be more such athletic clubs. What's the matter with our industries organizing baseball teams.

There may be those who are not fully satisfied with the League of Nations idea. But in it there is some cause for hope even if it is only "half a league—onward."

**Taxation of Land According to Value**

A better system than that of levying taxes on an acreage basis. When a rate of taxation amounting to about \$2.00 per quarter section was the total tax required to be levied on the lands in the Province for Provincial or Municipal purposes, the fact that these taxes were levied on a flat rate of so much per acre, regardless of the value of the land, did not cause any particular complaint, as while it was not a fair basis of taxation, the amount of taxes payable on each quarter section was so small that no particular hardship was caused, and

the fact that a man owning a quarter section worth about \$1,000 paid as large a tax as a man owning a quarter section worth \$4,000 was not just a rough consideration. As the years went on it was necessary to raise the rate of taxation and to levy additional taxes. With increased taxes it has become very evident that the levying of taxes on an acreage basis was not fair. It is admitted that it is impossible to levy taxes on an absolutely flat basis but the increase of the amount of taxes payable on a quarter section made it clear that a system of taxation whereby a quarter section worth only about \$1,000 was taxed as high as one worth \$4,000 was not just. Under such a system of taxation, taxes are not levied in accordance with the ability to pay. At a rate of say 10c per acre, a man with a quarter section worth \$1,000 pays \$15.00 taxes, so does the man with the quarter worth \$4,000. That is the man with the greatest ability to pay, pays only the same amount of taxes as his poorer neighbor who has land worth only one quarter as much. That is for the purpose of taxing the value of the property owned by the man with the poorer land is rated much higher than its real worth, while in the case of the man with the more valuable land, his property is rated at much less than its real worth.

In considering the merits of any system of taxation, the matter must be approached from the standpoint that taxes should be paid according to the ability to pay, and looking at it in this way, there does not appear to be any sound argument against the system of levying taxes according to value, rather than on an acreage basis. This principle having been recognized in connection with taxes levied directly or indirectly for the benefit of the Province at large, the differential assessed through which the Province derives revenue from taxes on lands were amended at the last session of the legislature by legislation introduced by the Minister of Municipal Affairs, so that beginning with the year 1920, all taxes levied by the Province, either directly or indirectly, will be levied according to the value of the land, and not according to the area. That is all taxes levied on lands outside of organized Municipal Districts under the Educational Tax Act; taxes levied on all lands in the Province under the Supplementary Revenue Act; taxes levied on lands outside of organized Municipal Districts under the Improvement District Act, and taxes levied on lands leased from the Dominion Government; and in these cases the taxes will still be levied on an acreage basis but the rate is now it does not create any great hardship.

In preparation for this work, all lands outside of organized Municipalities are now being valued in accordance with the direction of the Minister of Municipal Affairs and Municipal Districts which are not already levying their taxes according to land values, will be required to value all their lands for the purpose of taxation under the Supplementary Revenue Act next year.

The basis of taxation is the cash value of the land without taking into account any improvements made upon the land by the expenditure of capital or labor. In working out this cash value there are only three matters which are required to be taken into consideration, namely:

- First: The nature of the soil.
- Second: The nature of the surface; that is, whether it is broken by ravines, gullies or timber and so on.
- Third: The distance of the land from a shipping point.

As the comparative values will only change under exceptional circumstances, as for example, where a new railroad passes through the locality, and as this is the third and last consideration it will be noted that once the value is fixed, there will not be very much change for some years. This being the case, no provision has been made for a valuation by Municipal Districts only once in every five years, thus reducing the work and expense in connection with the levying of taxes. The first valuation under this scheme will be the valuation in the year 1920, the next in the year 1925, and so on. Provision of course been made for the valuation in any year of land which becomes liable to taxation during that year so that the fact that the general valuation is only made every five years, will not exempt land from taxation which becomes liable to assessment and taxation during any year other than that in which the general assessment is required to be made. Tax notices will of course be issued each year.

While a change from an acreage system of taxation to one according to value will cause extra work, matters will be adjusted themselves and there should be no difficulty in administering a system of taxation along these lines. The fairness of taxation now

levying to value will, if the matter is given due consideration, appeal to all fair minded people as a better system of taxation than the acreage system which makes the owner of poor land, generally a poor man, pay the same amount of taxes as the owner of good land, who is generally a wealthier man and better able to pay.

One of the main objections to taxation of land according to value has arisen from the fact that many land owners are under the belief that if taxes are levied according to value, the owner of the land will have to pay taxes on the value of the land, rather than the value of the improvements placed upon it by hard labor and by any expenditure of money. Such, however, is not the case. All provisions in the laws of the Province in regard to taxation of farm lands, requires the valuation of these lands for taxation purposes to be made on a raw land basis and there is no tax on the increased value of lands because of the improving of these lands by the expenditure of labor or money. That is, a man who improves his farm by cultivation, building of fences and putting up of buildings is not punished being equal, the owner of unimproved as the man who improves his farm and if he is making no use of his land, has, in addition, to pay a Wild Lands Tax.

**THRIFT IN THE SCHOOLS**  
In the schools of Canada alone the War Savings campaign is fraught with great possibilities and already the returns show that splendid progress is being made. What has been done in the schools of the United States is a fair indication of what may be done in the schools of Canada. In the schools of New York there is

aid to be a little over \$70000 children. During the period, December 1917 to January 31, 1919, no less than \$64,000 worth of War Savings and Thrift Stamps were sold in these schools, which means slightly more than \$7 for each child.

The Thrift campaign in the schools of the Dominion will produce 100 dollars in results. Every child should be encouraged to buy.

aid in the War Savings campaign. Parents should see to this. It will discipline the child in thrift, provide with a good investment and benefit the country.

Mr. Harcourt, manager of the Imperial Bank here, returned home from his holiday last evening.

REDCLIFF

## ITEMS OF LOCAL INTEREST

Painting, calimining and light woodwork, done at reasonable prices. J. A. Janning, Fifth Street.

Mrs. H. E. Howard, formerly of Redcliff but now of Calgary, is in town this week, the guest of Mrs. E. P. Argo.

A sample of wheat from A. Carter's field, two miles out of town, was brought to this office last Monday. The stock measured 18 inches high and was out in the shot blade.

Mr. and Geo. G. Lemon of Bowell, passed through town on Tuesday on their way to Medicine Hat to see Mr. Lemon's sister, who is at present in the Medicine Hat hospital where she underwent an operation.

St. Ambrose Jr. W. A. will hold their annual sale on the lawn at the vicarage on Monday afternoon, June 20th. A number of useful articles will be offered for sale on this occasion. Ice cream and other refreshments will be served during the afternoon. Entertainment commences at 2 o'clock.

An interesting game of football was played on the grounds here last Friday evening when the married players accepted a challenge from singles for a friendly game. It was quite picking for the singles. They got the best of a three nothing score and were allable to go to work the next day.

Sunday school officers of the Church of the Brethren here are making arrangements for a Sunday school rally to be held here on Sunday, July 6th. Sunday school workers from Mountain and Saskatchewan will join in this rally. Fuller particulars will be given later.

On Thursday last the W. A. of St. Ambrose church held their annual rally on the grounds near the church. It was well attended by a large number of people in spite of the coolness of the evening. Patriotic songs were well sung by the junior branch of the W. A. and much pleasure was derived from games and dancing, and enjoyment of the social gathering.

The concert given by our town band last Sunday afternoon after the ladies' service was greatly appreciated. The excellent music played was a great surprise to town and country people alike. The boys are deserving of great praise for the progress they are making. They are also deserving of the hearty co-operation, support and financial assistance from our citizens.

Bills are now out for the Box Springs annual picnic to be held on the old picnic grounds on Dominion Day, July 1st. A long list of athletic events and horse races has been arranged for and good prizes are offered each event. The picnic this year promises to be bigger and better than ever. Watch for the signs on the trail and you can't miss the picnic grounds.

There was to have been a meeting of the town council and the Board of Health last evening to discuss the emergency hospital question, and, if possible, make some preliminary arrangements regarding the outstanding accounts. As only two councillors turned out, the meeting did not materialize. We understand that word has been received from the provincial government stating that they are willing to extend financial aid to the town to help get this matter cleaned up. If this is the case the summer those concerned get busy and make some definite understanding the better.

Rev. D. Holligan is at Victoria, B.C., this week holding a series of services for the Church of the Brethren.

Dr. C. H. Kohler, of Minneapolis, president of the Brick & Coal Co. here, is in town this week on business in connection with the company.

BARN FOR SALE—Two-story barn in good condition, and can be moved, cheap. Apply to Fred Odlin, furniture dealer, Redcliff.

M. J. McIntyre appeared in police court last Tuesday charged with using water in prohibited hours. He was fined \$10 and costs.

J. Moreland, of the open hearth furnace staff, expects Mrs. Moreland and family to arrive in town tomorrow. They will take up residence in the Wheeler house on Fifth street.

T meeting of all guarantors of the Chautauque which is to be here for work commencing July 22nd, will be held in the Review office tomorrow (Friday) evening commencing at 8 o'clock. As officers will be elected and other business of importance attended to, a full turnout is requested.

During the past week some work has been done around the ruins of the old Laurel hotel. The old standing chimneys and walls have been blown down and now the surroundings are in much safer condition. The Wheeler block at the corner of Broadway and Third street should be the next to receive some attention.

Keep in mind garden party to be given in the town park next Wednesday evening under the auspices of the Ladies Aid of the Presbyterian church. A good program of music and athletic events is being arranged. There will also be refreshments both on the grounds. Come along and bring the children for an outing.

The Bowell branch of the Red Cross held a meeting last week and decided to disband further work at present. This branch was organized last August and since that time they have done a great amount of work as an auxiliary to the Redcliff branch. Besides the numerous articles they have made up ready for shipment overseas, they have also contributed \$197.28 in cash.

We have been informed that arrangements have been completed to locate a station and siding on the C. N. R. branch line which runs into Redcliff from the north about 11 miles north of town. This station is to be located on P. H. Wedderburn's purchased homestead, N.W. 1/4 of 18-14-6. This will be a convenient location to accommodate the farmers of the Harvest Vale and Box Springs districts.

## BOY SCOUT ORDERS.

Rally at 2:30 p. m., Sunday, June 22nd, at foot of Second street south. Boys will appear in uniform with brotherhood and staves.

T. A. HICKS,  
Scout Master.

## Five More Soldiers

## Return to Town

Redcliff boys continue to return from overseas in larger numbers than ever. During the past week five more have returned to town and intend to take up their residence here. These are Floyd White, W. McLean, J. H. Robinson, J. Davis and Capt. A. J. Nicholson. All have been exceedingly fortunate in escaping any serious injury and are now enjoying splendid health and robustness.

Floyd White is a son of Mr. and G.

## The Hicks Trading Company, Redcliff

W. White of this town. In June, 1915, he enlisted with the American army, and the following month he left for France. After three weeks training, he went into action at Argonne Woods, and also took part in the fighting along the Meuse river. He was captured at St. Julien and was in the hospital when the armistice was signed. He returned to New York at the end of last month and after getting his discharge came on to Redcliff, arriving here last Sunday evening.

Wm. MacLean is a popular localer of Colin F. MacLean, the present secretary of the G. W. V. A. act. He enlisted with the 87th Canadian Grenadier Guards of Montreal and left Canada in May 1916. In August of the same year he went to France. Although he went through a hard and well known resident. His wife is a daughter of Mr. and Mrs. P. Lavell of this town, and she and her little son have yielded here during Mr. Nicholson's absence. Capt. Nicholson left Canada in September 1916 as a signalling officer with the 15th with the rank of Lieutenant but his interest in the work and his ability to handle men soon won promotion for him and he returns to us as a captain. He went to France in May 1917 and took part in the fighting at Hill 70 and Passchendaele, and was in the final push last fall. He returned to Redcliff last Monday.

J. H. Robinson and J. Davis also enlisted early in the war and went through to the finish without any serious mishap.

## ENTHUSIASTIC MEETING

IN G.W.V.A. ROOMS
